“ I need to see and create beauty around me and I like to bring this beauty and playfulness to the life of people. ”

## **ART IS THE FONDATION OF MY LIFE, MY PASSION & CAREER**

Growing up, i felt very close to the nature, The plants, stones, colors of seasons was my inspiration. Meanwhile I was living in a busy big city center with my family, who raised us up during 8 years of war, trying to provide us the best quality of life despite all the economical and political aspects. Seeing my hard working parents and grand-parents, I learnt about true values of life and to recreate from the objects that surrounded me.

As a kid, I was participating in choosing materials and samples, colors and furnitures with my father, who was building houses and apartments.

Taking painting classes and learning about lights and volumes, I started to develop a true passion for spaces and objects and the way they all fit together. I knew soon enough that I am happy when I am creating or finding solutions to bring beauty, softness and elegance to interiors.

*En grandissant, je me sentais très proche de la nature, Les plantes, les pierres, les couleurs des saisons ont été mon inspiration.*

*Pendant ce temps, je vivais dans un grand centre-ville animé avec ma famille, qui nous a élevés pendant 8 ans de guerre, essayant de nous offrir la meilleure qualité de vie malgré tous les aspects économiques et politiques. En voyant mes parents et grands-parents qui travaillaient dur, j'ai appris les vraies valeurs de la vie et à recréer à partir des objets qui m'entouraient. Enfant, je participais au choix des matériaux et des échantillons, des couleurs et des meubles avec mon père, qui construisait des maisons et des appartements.*

*En suivant des cours de peinture et en apprenant sur les lumières et les volumes, j'ai commencé à développer une véritable passion pour les espaces et les objets et la façon dont ils s'emboîtent tous. J'ai su assez tôt que j'étais heureuse quand je créais ou trouvais des solutions pour apporter beauté, douceur et élégance aux intérieurs.*

## **FID BREAKS THE RULES AND DOES NOT FOLLOW ANY TRENDS.**

*"Je veux créer une ligne qui vous incite à « DEVENIR LE CRÉATEUR » de votre espace de vie en vous donnant la clé pour faire entrer votre unicité et votre imagination dans votre quotidien. "*

— **FID Paris, founded by  
Sahar Famouri,  
the visionary and contemporary furniture  
that enchants us.**

Behind a brand, there is always a passion, an expertise, a desire to share know-how. That of Sahar Famouri is part of furniture and interior design. A graduate in industrial design in Tehran in 2004, she enriches her experience with training in interior architecture and scenography. Her move to Paris in 2007 gave her the opportunity to fulfil her fascination for volumes, materials and shapes by working for luxury brands as Artistic Director. At the same time, Sahar Famouri designs attractive projects for major furniture brands. Seats design interests her more and more, leading her to imagine furnishing objects intended to enhance the spaces. Increasingly involved in her own creations, the designer designed the CRYSTAL sofa in 2015, which reinvents the way of sitting. Visionary, her creation nevertheless arouses the reluctance of publishers, preferring to stay on familiar ground. Determined and certain of the avant-garde of her ideas, Sahar Famouri does not allow herself to be discouraged. In 2016, she took the plunge and launched FID paris to give her own vision the chance to express itself.

*Derrière une marque, il y a toujours une passion, une expertise, une envie de partager un savoir-faire. Celui de Sahar Famouri s'inscrit dans le mobilier et la décoration d'intérieur. Diplômée en design industriel à Téhéran en 2004, elle enrichit son expérience par une formation en architecture d'intérieur et scénographie. Son installation à Paris en 2007 lui donne l'opportunité d'assouvir sa fascination pour les volumes, les matières et les formes en travaillant pour des marques de luxe en tant que Directrice Artistique. Parallèlement, Sahar Famouri conçoit des projets attractifs pour de grandes marques de mobilier. Le design des sièges l'intéresse de plus en plus, l'amenant à imaginer des objets d'ameublement destinés à sublimer les espaces. De plus en plus impliquée dans ses propres créations, la designer conçoit en 2015 le canapé CRYSTAL qui réinvente la façon de s'asseoir. Visionnaire, sa création suscite néanmoins les réticences des éditeurs, préférant rester en terrain connu. Déterminée et certaine de l'avant-garde de ses idées, Sahar Famouri ne se laisse pas décourager. En 2016, elle saute le pas et lance FID paris pour donner à sa propre vision la chance de s'exprimer.*

## Towards contemporary, modular and unconventional furniture.

By launching her furniture brand, Sahar Famouri aspires to share new standards in the world of Design, to free itself from current trends: sure the design is important, but above all the design should meet the daily use.

Her collection of CRYSTAL seats becomes her signature and imposes her credo « BEYOND STANDARDS ». Far from being simply visual, the collection promises undeniable comfort. The tone is set, the codes of the sector are destined to be shaken up, redefined to instil a more liberated and audacious state of mind. FID Paris imagines contemporary and modular furniture, which can be combined with pure and minimalist aesthetic lines. The forms are intended to be geometric, variable, with complementary colors, designed to be recomposed to infinity according to each moment of the life. Far from any trend, the brand cultivates a visionary approach, offers a playground to express its imagination and its uniqueness. The piece of furniture is thus thought of as a central stage, occupying the space with strength and audacity; FID Paris invites the user to become the creator of their interior.

*En lançant sa marque de mobilier, Sahar Famouri aspire à partager de nouveaux standards dans le monde du Design, à s'affranchir des tendances actuelles: certes le design est important, mais avant tout le design doit répondre à l'usage quotidien.*

*Sa collection de sièges CRYSTAL devient sa signature et impose son credo « BEYOND STANDARDS ». Loin d'être simplement visuelle, la collection promet un confort indéniable. Le ton est donné, les codes du secteur sont voués à être bousculés, redéfinis pour insuffler un état d'esprit plus libre et audacieux. FID Paris imagine des meubles contemporains et modulables, qui peuvent être combinés avec des lignes esthétiques pures et minimalistes. Les formes se veulent géométriques, variables, aux couleurs complémentaires, conçues pour se recomposer à l'infini selon chaque instant de la vie. Loin de toute tendance, la marque cultive une approche visionnaire, offre un terrain de jeu pour exprimer son imaginaire et sa singularité. Le meuble est ainsi pensé comme une scène centrale, occupant l'espace avec force et audace ; FID Paris invite l'utilisateur à devenir le créateur de son intérieur.*

# — A JOURNEY OF PASSION AND PERSEVERANCE

2015- I designed a non-conformist sofa that break the rules to inspire a sitting solution beyond standards. Soon after publishing the concept I started to receive orders from both private and professional clients. therefore I have decided to start the processes of prototyping this design with the most experienced french craftsmanships, after a year of perfecting the prototype , finally in 2016 the 1st edition came out as expected. because of non symmetrical and different angels of this design i named it CRYSTAL and become the unique editor of my own creations.

2017-CRYSTAL was awarded by the "Red Dot" design jury for:

High design quality, expressing innovation in Form and function in an exemplary way,

I was convinced that this vision of design I believed in, deserves to be given the chance to be Developed in larger scale of production to answer the public demands and not only a niche market.

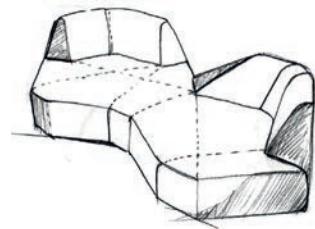

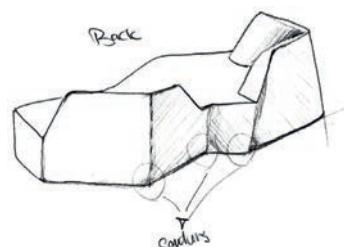

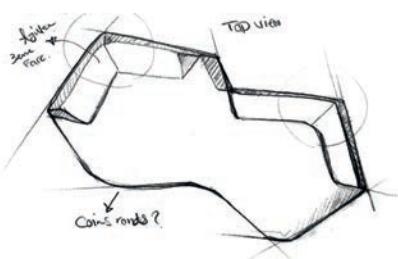

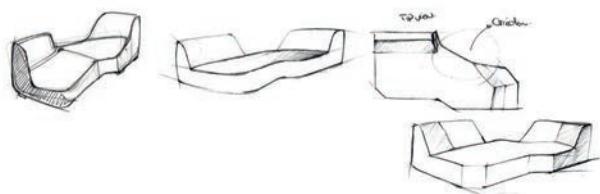

2019- I founded the brand FID to suggest the next era in contemporary furniture design, Beyond the norm, sets new standards in the world of design, a part from following any trends based on uniqueness, durability and functionality of designs.

After years of changing factories traveling Europe, building and investing on countless prototypes, from failing to raising up again and in repeat, nights of hard work the story and journey of FID from CRYSTAL to becoming a brand is far from being simple and easy ,

Like many other creators I was permanently exposed to the real life challenges, some social others professional or personal, finding solutions and building up again became non negotiable since "The clear vision of what FID can offer to the world" was my core during all the up sides downs.

Today I am very proud to share in this catalogue FID 's very first collection, the result of years of development with passionate European craftsmanship.
