The Evolution of a Visionary

Sahar Famouri, founder of FID Paris, embodies a bold vision and a passion for the art of living. Her journey is a story of determination, passion, and an incessant quest for excellence. An industrial designer born in Tehran and living in Paris, she turns her dual culture into a true asset. A lifelong enthusiast of design, objects, colors, and creation, she boasts over 15 years of experience in various design fields: from art direction to furniture design, scenography, and interior architecture. Sahar Famouri thus carves her path between creation and entrepreneurship.

By establishing her own furniture brand in 2020, Sahar Famouri challenges us to envision our living spaces in an entirely new way. Her pieces are not mere furniture; they are architectural statements prompting us to reconsider the role of furniture in our lives.
